

Applied Computer Music Technologies Ltd  
Product Activation Code

This is your product activation code for the ACM-3SA passive filter plug-in. This activation code is provided free of charge and is not for resale, redistribution or general publication. By installing the product activation code you are agreeing to these terms and conditions.

320D-59C6-F498-A3F3-B397

To remove any demo limitations, install the product activation code as follows:

1. Open the plug-in in your host application and click the lock button at the top left corner of the plug-in to open the license entry dialogue.
2. Type (or paste) your product activation code into the text box.
3. Restart your host application to complete the activation process.

For help or information about installing the software or product activation code, please email
